

The Road Ahead Reusable Tray Service in the Anchorage School District

Gavin M. Northey, SNS
Business Manager

Anchorage School District, Student Nutrition

Student Nutrition Mission

- Deliver satisfying and nutritious meals
- Support student learning and success in life
- How does reusable tray service align with our mission?
 - Better quality, more appealing
 - Students more likely to eat an appealing meal → **Nutrition**
 - Unappealing, uneaten meal → **NO**trition
 - Positions ASD Child Nutrition Programs to be sustainable
 - Financially AND
 - Environmentally

Agenda

Problem

Challenges

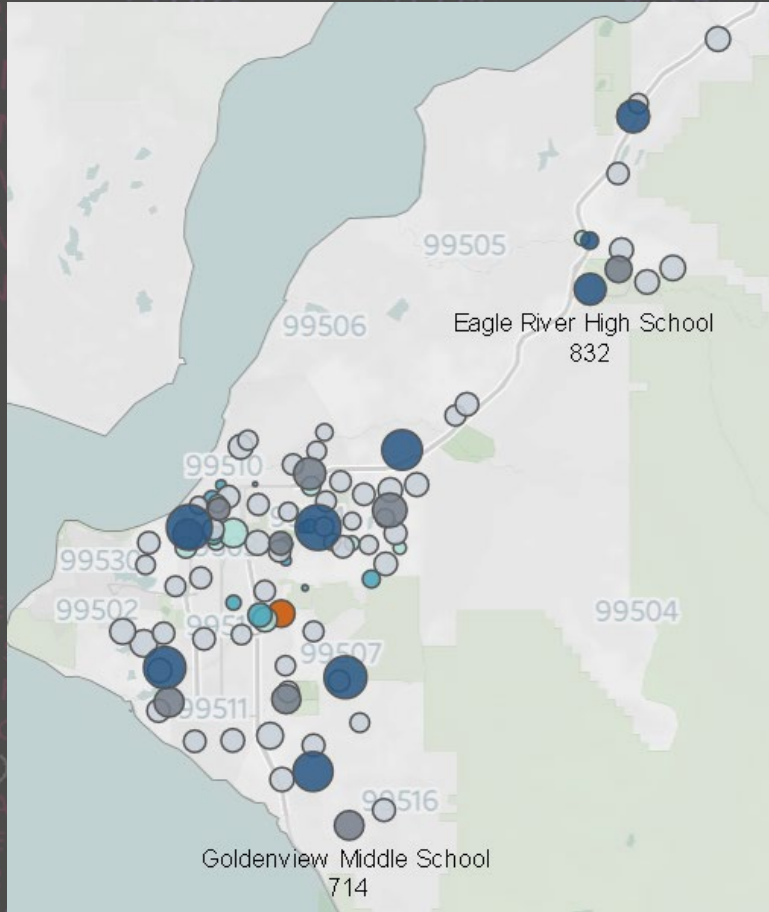

**Upfront
Costs**

**Additional
Costs**

**Analyzing results
Taking action**

DISCLAIMER: This
isn't OVS, you will
be served all 5
agenda items

Too Big to Change

- 80 serving schools, 250 staff
- Too many facilities!
- Too much training!
- 30+ years of operating Central Kitchen model
- Too much invested!
- Declining Budget
 - No money to change!
 - Department and District level budget cuts
- Change is scary!

What if we could make ONE change?

- Pilot program at Service High School
- Replaced overwrapped meals and paper trays
- Reusable Trays improved:
 - Quality (taste and texture)
 - Presentation
 - Sustainability
 - Cost?

```
SELECT sc.sc_site_id, enr.enroll_site_id, enr.enroll_claimmo, enr.enroll_date, enr.enroll_name, site.site_geo_lat, site.site_geo_long, enr.prodtype_desc, prod.stocknumber, prod.preparedquantity, prod.preparedquantity * enr.enroll_claimmo AS lo ON  
FROM sc.sc_site ON sc.sc_site = site.site_id  
INNER JOIN enr.enroll ON enr.enroll_site_id = sc.sc_site_id  
INNER JOIN prod ON prod.siteid = enr.enroll_site_id

```

Single-use v. Reusable Tray

Single-Use Tray

- 2-compartment Oven-safe Tray
- \$0.36 each (landed)

Reusable Tray

- 6-Compartment Tray
- \$~8.42 each (landed)

$$\text{Breakeven units} = \frac{\$8.42}{\$0.36} = 23.4$$

```
SELECT sc.sc_site_id, enr.site_name, site.site_geo_lat, site.site_geo_long, sc.sc_conv, mct.mct_dt, mct.c_mct_ct,
       enr.prodtype_desc, enr.enroll_claimmo, prod.prod_id, prod.description, prod.quantity, esm.prodtype_id,
       prod.leftoverquantity, lo.leftover_cd, lo.leftover_desc, lo.leftover_dispositioncomment, prod.reservedquantity, prod.
FROM sc
INNER JOIN site ON sc.sc_site_id = site.site_id
INNER JOIN production ON sc.sc_site_id = prod.siteid

```

The Devil is in the Details

- **Labor Cost**

- More time to wash dishes
- Less time pre-plating
- More staff on serving line

- **Equipment Costs**

- Dishwashers
- Racks and shelves

- **Logistics**

- Serving Line: More staff, fewer hours
- Drying and Storage of Trays

- **Shrinkage**

- Trays WILL become ambulatory

Tray'd Up! Is it making a difference?

- After replacing trays, evaluate performance
- Has waste decreased?
- The results are ambiguous

Age Group, Measure Names, Service

- High School, Avg. Leftover Discard or Unusable (%), Overwrap
- High School, Avg. Leftover Discard or Unusable (%), Tray
- High School, Avg. Servedquantity, Overwrap
- High School, Avg. Servedquantity, Tray
- Middle School, Avg. Leftover Discard or Unusable (%), Overwrap
- Middle School, Avg. Leftover Discard or Unusable (%), Tray
- Middle School, Avg. Servedquantity, Overwrap
- Middle School, Avg. Servedquantity, Tray

Where did all the students go?

- It appears that participation is DOWN!?
- Despite having a better product
- Easy solution, just perform a multiple linear regression!

Age Group, Measure Names, Service

- High School, Avg. C Mct Ct, Overwrap
- High School, Avg. C Mct Ct, Tray
- High School, Avg. Meal Participation (%), Overwrap
- High School, Avg. Meal Participation (%), Tray
- Middle School, Avg. C Mct Ct, Overwrap
- Middle School, Avg. C Mct Ct, Tray
- Middle School, Avg. Meal Participation (%), Overwrap
- Middle School, Avg. Meal Participation (%), Tray

Meal Counts and Meal Participation

It looks like you just spoke in Greek.

Would it be easier to drill down data based on averages?

Yes

No

Drill Down Your Data

- Start at broad level and look at averages
- Look for variances
- Drill into variances, such as a subsection of schools or menus
- Don't waste time, if you know you won't take action, don't waste time analyzing

By Grade Group and CEP Status		Lunch Total per Day			Participation		
	# Schools	SY 19-20	SY 18-19	Δ	SY 19-20	SY 18-19	Δ
Elementary School							
CEP	26	6,951.32	7,232.04	(193.13)	74.7%	75.3%	-0.6%
Pricing	32	3,746.85	4,226.47	(337.35)	29.2%	32.8%	-3.6%
Total Elementary School	58	10,698.17	11,458.50	(530.49)	48.3%	51.0%	-2.7%
Middle School

Taking Action

- Once you have identified possible challenges, take action!
- S.M.A.R.T Goals
 - You have already identified the M in your S.M.A.R.T goals!
 - You just need S, A, R, and T
- Consider marketing

Why Marketing

- Marketing is the backbone of a successful organization
- It is more than just advertising, in fact...
- Marketing is the process of determining consumer desires and delivering the right PRODUCT, for the right PRICE, at the right PLACE, via the right PROMOTION

```
WHERE prod.meal_prod_pd = 'Lunch'
ORDER BY
  sc.sc_site ASC,
  prod.productiondate ASC,
  esm.prodtype_id ASC,
  prod.preparedquantity DESC
```

The 4 P's

- Product
 - The deliverable product or service
- Place
 - The location and method in which the product is conveyed
- Price
 - What the consumer is willing to give in exchange for the product
- Promotion
 - The method in which we tell the consumer we have what they want

```
SELECT sc.sc_site, site.site_name, site.site_geo_lat, site.site_geo_long,
       enr.enroll_ct, enr.enroll_claimmo, prod.prod_id, prod.stockd,
       esm.prodtype_desc, prod.stocknumber, prod.stockd,
       leftoverquantity, lo.leftover_cd, lo.lo...
FROM sc.sc_site ON sc.sc_site = site.site_id
INNER JOIN production AS prod ON sc.sc_site = A...
INNER JOIN production AS esm ON prod...
FROM meal_count
WHERE mct_prog_id = 1
AND prod.productiondate = mct.mct_dt
ORDER BY
  sc.sc_site ASC,
  prod.productiondate ASC,
  esm.prodtype_id ASC,
  prod.preparedquantity DESC
```

Long-Term Evolution

- The transition from disposable to sustainable service in Anchorage will be a long-term evolving process
- Whether you are considering a similar change or another big change in your own district, the key takeaways are:
 - Put your mission first
 - Decide where you want to be
 - Make a plan, do your research up-front
 - Accept challenges, assess your situation
 - Analyze your situation
 - Take action, look at your 4 P's
- Reward requires risk

```
ORDER BY
  sc.sc_site ASC,
  prod.productiondate ASC,
  esm.prodtype_id ASC,
  prod.preparedquantity DESC
```
